A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C.—Get a free trial bottle at Hodgkinson & Co.'s drug store.

At Night Always have Acker's Baby Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains *no Opium or Morphine*, but gives the child *natural ease from pain.* Price 25 cents. Sold by

W. PINNIGER, Druggist.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or blood. Only a half dollar a bottle at Hodgkinson & Co.'s drug store.

Don't Trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNIGER, Druggist.

Indigestion or Constipation.

A few Hamburg Figs are all that is necessary for the cure of the severest cases of indigestion or constipation, and one taken occasionally will prevent the development of these affections. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Babies That are fretful, peevish, cross, or troubled with Windy Colic, Teething Pains, or Stomach Disorders, can be relieved at once by using Acker's Baby Soother. It contains no Opium or Morphine, hence is safe. Price 25 cents. Sold by

W. PINNIGER, Druggist.

Suicide.

Dr. Flint's Heart Remedy has saved more lives by timely use, and has kept from suicide or the insane asylum more victims of nervous disorders, than all the physicians with their pet methods of treatment. All druggists. $1.50. Descriptive treatise with each bottle; or address J. J. Mack & Co., S. F.

Save The Children. They are especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Acker's English Remedy a positive cure. It saves hours of anxious watching. Sold by

W. PINNIGER, Druggist.

A Few Facts.

Allcock's are the only genuine porous plasters. They act quickly and with certainty, and can be worn for weeks without causing pain or inconvenience. They are invaluable in cases of spinal weakness, kidney and pulmonary difficulties, malaria, ague cake, liver complaint, dyspepsia, strains, rheumatism, sciatica and nervous debility. Other plasters blister and inflame the skin so that the pores are closed and often cause serious injury. You risk health and waste time and money by buying inferior plasters made to sell on the reputation of Allcock's.

Many Of the good things of this life are sorrowfully let alone on account of Dyspepsia. Acker's Dyspepsia Tablets will cure Dyspepsia, Indigestion and Constipation; sold on a positive guarantee at 25 and 50 cents, by

W. PINNIGER, Druggist.

Soothes and Heals.

Santa Abie soothes and heals the membranes of the throat and lungs, when poisoned and inflamed by disease. It prevents night sweats and tightness across the chest, cures coughs, croup, asthma, colds, bronchitis, pneumonia, whooping cough, and all other throat and lung troubles. No other medicine is so successful in curing nasal catarrh as California Cat-R-Cure. The enormous and increasing demand for these standard California remedies confirm their merits. Sold and absolutely guaranteed by Osborne & Shoemaker, at $1 a package. Three for $2.50.

Fryer's Abietene Ointment—A combination of the Gum Abietene, Vaseline and other Therapeutic agents. The best healing and purifying remedy in the world, for Piles, old sores, Ulcers and all Eruptions of the Skin. Price, 25 cents. Sold by Wm. Pinniger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Pneumonia can be quickly and permanently cured by adding the Powder to be found with each bottle of Fryer's true Abietene Cough Balsam. Sold by Wm. Pinniger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Cure for Piles.

★ Itching Piles are known by moisture like perspiration, producing a very disagreeable moisture after getting warm. This form, as well as Blind, Bleeding and protruding Piles, yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the part affected, absorbing the tumors allaying the intense itching, and effecting a permanent cure. 50 cents. Address The Bosanko Medical Co., Piqua, O. Sold by S. J. Hodgkinson & Co., Reno, Nev. ly

An Absolute Cure.

WATER STORAGE.

An Old Trapper Points Out its Advantages a Quarter of a Century Ago.

The following, which was undoubtedly related by T. D. Parkinson, of the Nevada Land and Cattle Company; is printed in the San Francisco Bulletin:

Now that the question of water storage and irrigation is attracting attention on all sides, the following account of the cause which led to the starting of one of the most important schemes on this coast will be read with interest. The gentleman who related the incident is now in the city and vouches for its truthfulness. Since the time of which he speaks he has successfully carried out the plans which then seemed to him but the visions of a weak-minded old man. He had been describing a great dam that he had built for the storage of water for irrigating purposes and was asked how he came to turn his attention to that in such an out-of-the-way place and at a time when no one else seemed to have thought of such a thing. He replied as follows:

"It was brought about in rather a peculiar way, and though not much given to romance and sentiment, I can certainly attribute the result of our works and the efforts of many years of my life to an incident that happened which I will relate.

"Away back in 1862, when the mining craze was upon us, when countries were only explored for hidden treasures and agriculture was at a discount on the west side of the Rockies, my duties as County Surveyor called me to a section of country, near my present home, which at that time was occupied only by hostile Indians. One evening, after having finished the work of the day and while our party were discussing the question whether we would awake in the morning with entire scalps, there appeared among us, as though dropped from the clouds, a grizzly-headed old man in the garb of a trapper. On invitation, he settled himself before the remains of our frugal repast, which seemed to affect him to such a degree that he continued with us while in that district. During his stay he gave no account of himself or his business, and not until the last moment, when he was about to leave, did he unburden his mind. Taking me aside one morning he revealed to me that he had a project in view, and that there were 'millions in it.' Nothing would satisfy him till I consented to go with him to the spot where he could better explain. Alone did I accompany him, for so he would have it, and as he plodded silently by my side, for he disdained the saddle, I must acknowledge that at times I had misgivings as to my own sanity in placing myself in the hands of a crank. The Indian trail we had been following for some hours led us through a deep canyon, through which flowed a rapid stream of considerable size. Upon reaching the summit of a high bluff, he stopped, and pointing to a large valley above, announced that this was his 'find'. Never shall I forget the astonishment that overcame me as I listened to this old man's burst of enthusiasm. The visions of wealth he had in view from the impounding of water for the reclamation of the great arid plains below made the stories of the impecunious owners of 'feet' values seem insignificant. I will not prolong the story by giving the details of his argument. I listened to him throughout, and though admitting the practicability of the scheme, I feared his days would be numbered before this system of reclamation would be brought into practice. I was a young man at that time, and being a civil engineer the old man's visit strongly impressed me."

Fryer's Abietene Cough Balsam—A combination of the Gum Abietene, Yerba Santa and Mullein, is guaranteed to cure Coughs, Colds and all Lung diseases. (It contains no opium.) Price, 75 cents. Sold by Wm. Pinniger. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Vitiated Blood

Scrofulous, Inherited, and Contagious Humors Cured by Cuticura.

THROUGH THE MEDIUM OF ONE of your books received through Mr. Frank T. Wray, druggist, Apollo, Pa., I became acquainted with your CUTICURA REMEDIES, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this, after having been pronounced incurable by some of the best physicians in our county. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your CUTICURA REMEDIES a trial. P. S. WHITLINGER, Leechburg, Pa.

Reference: Frank T. Wray, druggist, Apollo, Pa.

SCROFULOUS ULCERS.

James A. Richardson, Custom House, New Orleans, on oath, says: "In 1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the CUTICURA REMEDIES, used them and was perfectly cured." Sworn to before U.S. Com. J. D. Crawford.

ONE OF THE WORST CASES.

We have been selling your CUTICURA REMEDIES for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of scrofula I ever saw was cured by the use of five bottles of CUTICURA RESOLVENT, CUTICURA and CUTICURA SOAP. The Soap takes the "cake" here as a medical soap.

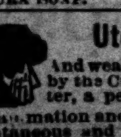

TAYLOR & TAYLOR, Druggists, Frankfort, Kan.

SCROFULOUS INHERITED.

And Contagious Humors, with Loss of Hair, and Eruptions of the Skin, are positively cured by CUTICURA and CUTICURA SOAP externally, and CUTICURA RESOLVENT internally. Send for Pamphlet.

CUTICURA REMEDIES are sold everywhere. Price: CUTICURA, the Great Skin Cure, 50 cts.; CUTICURA SOAP an Exquisite Beautifier, 25 cts.; CUTICURA RESOLVENT, the new blood purifier, $1.00. POTTER DRUG AND CHEMICAL CO., Boston.

PIMPLES, Blackheads, Skin Blemishes and Baby Humors, use CUTICURA SOAP.

Uterine Pains.

And weakness instantly relieved by the Cuticura Anti Pain Plaster, a perfect antidote to Pain, Inflammation and weakness. A new instantaneous and infallible pain-killing plaster. 25 cents.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS

Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and all Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is a rich, sandy loam, and cannot be surpassed in productiveness. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world.

JOHN S. GILSON, Real Estate Agent, Reno, Nev.

As good land as there is in Butte County. JOHN BEALL, Biggs.

As fine a piece of land as there is in this county. First-class for cereals and fruits. L. D. FREER, Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world.

M. BIGGS, JR. Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California.

—Biggs Argus.

No richer land can be found in all California.—*Oroville Register.*

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better. JACOB KRUSICK, Gridley.

It is all splendid fruit land without irrigation. WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California. GEO. W. CRUM. Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich.

—Oroville Mercury.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me. G. K. SMITH, Banker, Biggs.

With proper cultivation it will raise all kinds of vegetables, fruits and vines.

W. A. SHIPPEE, Nelson.

My orange trees on land within a mile of yours have done magnificently. They began bearing the third year from planting, and are now hanging full of splendid golden fruit.

THOS. HUTCHINS, Gridley.

I cannot speak too highly of the merits of your soil; none better in the State for stone fruits. The oranges now growing in my front yard are of as fine flavor and the trees of as thrifty growth as I have ever seen anywhere.

JOHN S. HUTCHINS.

If your land were in fruit bearing trees, the land would be worth and would pay a good interest on an investment of $500 per acre. Our orchard of 75 acres adjoining your place, this year yielded at the rate of $300 per acre.

JOHN C. GRAY, Oroville, JAS. HENNIGER, Gridley, Executors Hilger's Estate.

On such land as yours, all kinds of fruit do well. A test of 75 of my apple trees showed a yield last year at the rate of 1,000 per acre. There has not been even one failure of my apple crop in 30 years. PHILLIP HEFNER, Central House.

My orchard is 27 years old, and adjoining your land which is exactly the same as mine. The net average yield per acre, *without irrigation*, has been not less than $200 per annum. I have not lost a fruit crop in 27 years from frost or any other cause.

D. STREETER, Biggs.

I know the great capabilities of your place as a fruit ranch. In five years after planting, that land in olives would yield fully $300 per acre in oil, and will increase year after year until its annual yield will exceed $500.

JOHN C. GRAY, Dist. Att'y.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, it is estimated, be worth at least $500 per acre. At this rate, twenty acres in fruit within three years would be worth $10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

☞The land is now for sale in tracts to suit at $100 per acre, on easy terms—one-third cash; balance in one, two and three years at eight per cent. per annum.

☞Buy ticket to Biggs. Fare from San Francisco, $5.20; from Sacramento, $2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars.

THURSDAY.....FEBRUARY 23, 1888

If Carson could get a character who is well known in the oil regions of Pennsylvania, another big strike might be made in the vicinity of the North Carson mine. This Pennsylvania "douser" can locate a gas territory by simply walking over it. If gas exists there, it would instantly make its presence known to him, he said, by affecting him with a strange tickling and choking sensation in the throat. For years he tried to impress natural-gas operators with the importance of this gift of his, but only succeeded in gaining the reputation of being a harmless, but annoying crank. A few weeks ago he turned up in the Ohio gas and oil fields, and it seems that he induced some parties to believe that the gas could be found on a tract near Delphos. The tract generally was regarded as entirely barren of both oil and gas. The douser declared that it was all he could do to walk over the tract in question because of the suffering he experienced from the gas underground. He took parties to the place and walked them over the tract. He was ill in appearance and nearly choked to death while crossing the field. The parties resolved to spend some money in testing the territory entirely on the strength of the douser's choking. A well was drilled and struck a vein of gas. The well was torpedoed and responded with a flow of more than five million feet of gas a day. The douser is now a lion in that region and overwhelmed with applications for his services in "choking" gas territory. His gift for locating gas by suffocation bids fair to be worth morth more to him than a big gas well itself would.

William Walter Phelps is quoted as saying to a southern man that it was altogether probable that Senator Hiscock of New York, would become the legatee of Blaine, and that he would go into the national convention with New York, New Jersey and all the eastern and middle states, except Connecticut, behind him. This report has made Hiscock an important factor in politics. It looks, however, as if the result of the publication of Blaine's letter would be to encourage all aspirants for the presidency to make heroic efforts to enlarge their respective followings, go into the national convention with a dozen candidates, and then, perhaps, under the inspiration of a Kansas or California hurrah, break for Blaine and nominate him by acclamation on the first ballot. All his friends agree that he would not refuse the nomination under these circumstances.

The English press have given Blaine's letter of refusal elaborate comment. One reading between the lines cannot fail to detect sly gratification and satisfaction at the Plumed Knight's determination. They are looking ahead for a President who favors free trade, one who will help them to saddle the United States with a doctrine that fosters their industries and cripples ours. Blaine, being the best exponent of protection, the gallant defender of our industries, the champion contestant against the Cobden Club and their false doctrines, it is not to be wondered at that English papers rejoice, since the fear of his canvass has been removed by his own declaration. England felt the impress of his genius and fearlessness, while he was Secretary of of State and did not relish his occupancy of the first position of the country.

In the present phase of its interesting and rather complicated political evolution, the New York *Sun* thinks it would prefer four years more of Grover Cleveland to a Republican President, but does not admire him "personally," and considers his renomination "unadvisable, and, as a political transaction, unsafe."

Saturday night at Grass Valley a piece of wood exploded in Richard Vincent's stove, scattering things generally. The stick of wood had been loaded by some miscreant desiring to harm Vincent.

That's all right; but sticks of wood which explode in a stove are usually borrowed from a neighbor's woodpile.

Politicians are of the opinion that the difference of opinion between Henry George and Father McGlynn will take the Labor party out of national politics, and that it hereafter will not be considered a factor worthy of consideration in American politics.

Opening of the Canadian Parliament by the Governor-General.

Ottawa, Feb. 23.—The Canadian Parliament was opened to-day by the Governor-General. In his address he congratulated the members on the prosperity of the country, especially Manitoba and northwestern territories Referring to the fisheries treaty he said: "Negotiations between Her Majesty's government and that of the United States for the adjustment of what is known as the fishery question have, I am pleased to inform you, resulted in a treaty, which I venture to hope will be considered by you as honorable and satisfactory to both nations. The extension and development of our system of railways have not only rendered necessary additional safeguards for life and property, but have given greater frequency to the question in which the interest of rival companies are found to be in conflict and to require authoritative adjustment. As further legislation appears to be needed for these purposes, a measure will be submitted to you for consideration and improvement of the Railway Act. My Government has availed itself of the opportunity offered by the recess, to consider numerous suggestions which have been made for improving the details of the Act respecting the relative franchise, and the measure will be submitted to you for the purpose of simplifying the law and greatly lessening the costs of its operation. The growth of the northwest territories renders expedient improvement in the system of government and legislation affecting these parts of the dominion, and a bill for that purpose will be laid before you. The bill will be submitted to you to make the larger portion of modern laws of England applicable to the province of Manitoba and to the northwest territories."

A Ghastly Discovery.

San Francisco, Feb. 22.—Last January the body of an unknown man found on the waterfront was removed to the Receiving Hospital, where it was found that death had been produced by natural causes. There were no means of identification, and the corpse eventually passed into the hands of the medical department of the University, for dissection.

Last week a young woman called at the city prison in the course of her search for her father, Benjamin Armstrong, a wealthy prospector of Reno, Nevada, and after exhausting every clue, was directed to the University. Here a number of remains were examined to no purpose, but the woman's suspicions being aroused she returned with some friends and demanded that the body of her father be produced, which was finally reluctantly complied with by the production of several dissected portions of the body, which, when joined was identified.

Fishery Treaty to be Rejected.

New York, Feb. 23.—The *Tribune* this morning prints an interview with Senator Frye in regard to the fisheries treaty. The Maine Senator criticises the treaty severely. He says privileges have been surrendered and new exclusions introduced, and fishermen's necessities juggled. The *Tribune* says: "In view of the fact that Frye's judgment in all matters relating to the fisheries are accepted by his Republican colleagues in the Senate, it is not too much to say that the fate of the treaty is sealed. It will be rejected by an overwhelming vote. The only question is by how large a majority it will be beaten.

Dakota May Get In.

Washington, Feb. 23.—By a strict party vote the House Committees on Territories to-day agreed to report favorably Chairman Springer's "Omnibus bill" to enable the people of Dakota, Montana, Washington territory and New Mexico to form constitutions and state governments and be admitted to the Union on an equal footing with the original states.

St. Louis Selected.

Washington, Feb. 22—St. Louis has been selected as the place for holding the Democratic convention. A motion to reconsider the vote, fixing the date at July 30, was defeated by a vote of 23 to 24. Finally June 5th was designated as the day of meeting.

The first ballot resulted: San Francisco, 17; Chicago, 16; St. Louis, 13; New York, 1.

Anxious to go to Jail.

Chicago, Feb. 23.—Dan Wren, the convicted ex-county commissioner, came into court this morning and asked to be sent to the penitentiary at once. The request was granted, and the "boodler" will be taken to Joliet to-night.

Glad You Think So.

London, Feb. 22.—The *Times* says: We shall be surprised if the majority of the Canadians do not appreciate the fisheries settlement highly. We are certain that the compromise will appear more skillful the more it is examined.

TELEGRAPHIC BREVITIES.

—James T. Day, a Sacramento man, a pioneer and a Mason, died at Redding on the 21st.

—George H. Corliss, the eminent chemical engineer and manufacturer, died in Providence, Rhode Island, on the 21st inst., of paralysis of the heart. He was aged 72 years.

—Edward Weisenburger, aged 18 years, was thrown out of a wagon at Nevada City on the 20th inst., by a runaway team, and had his right leg broken, the fracture being of a serious nature.

—Judge Davis S. Terry was wrong in his prediction the other day that the Sharon divorce case had seen its last days in the Supreme Court, for the Sharon heirs late on Monday, through counsel, filed two voluminous petitions in the office of the Supreme Court Clerk, for a rehearing. The petitions were filed on the last day allowed by law.

Kindness Appreciated.

Mrs. M. E. Palmer and family return their heartfelt thanks to Mitchell Post, G. A. R., the ladies of the Relief Corps and all other friends who so kindly assisted during the fatal illness and at the funeral of their late beloved husband and father, W. S. Palmer. The blessing of the widow and the fatherless is their reward.

MINING INTELLIGENE.

The "Gazette's" Weekly Summary of Mining News.

The first quartz mill in California was erected at Grass Valley.

The Live Yankee mine, Aurora, is being prospected by an English company.

Dividends aggregating $420,000 were paid by Montana mining companies in January.

The Del Monte, Tuscarora, started out in the San Francisco Board at $1 a share.

The North Belle Isle mill, Tuscarora, is running steadily on ore of high grade.

The first canals for conveying water to mines were projected at Nevada City in 1850

Experts are examining the Silver Peak, Esmeralda county, mines in the interest of an English company.

The Savage mine during January produced $39,000 in bullion, about forty per cent of which was gold.

The first Long Toms, the first sluices, the first hydraulic mining, were started in Nevada county, California.

At Austin there are now over eight little companies digging into Lander hill and Marshall canyon. All expect to strike the Whitlatch.

The first discovery of the existence of ancient river channels, and that they contained gold in paying quantities, was made near Nevada City.

A rich strike of chloride ore has just been made at Spanish belt, Nye county, Nevada. Assays made of this ore gave $1,200 and $1,800 to the ton.

The additions to the Garfield mill, Garfield district, Nevada, has been completed, and it is now running to its full capacity, with plenty of ore on hand.

The Idaho Mining Company of Grass Valley, California, has just paid its 222d consecutive dividend at the rate of $7 50 per share. There are only 2,000 shares in the mine.

The English company at Aurora are driving a tunnel to tap the Live Yankee. The tunnel is in about three hundred feet. The company expect to strike the Yankee's nose in a few days.

Napoleon Laundry has bought A. N. Grignon's interest in the Lacruiz mine of Silver City for $5,000, and is now a one-third owner. The lucky owners of this mine are F. S. Lacruiz, J. B. Dazet and Napoleon Laundry, in equal interests.

Within the last week another important strike has been made in Hawthorne district. In running a crosscut northwesterly from the 150 level of the Lapanta mine a four-foot vein was struck. The lessees are jubilant over the discovery, for the ore is worth $100 per ton.

NEARLY A FATAL DRINK.

A Genoa Man Attempts to Poison His Father-in-Law.

A press dispatch from Genoa, in this State, under date of the 21st inst, says: A warrant has been issued for the arrest of Zach Field for attempting to poison his father-in-law, W. D. Gray, an old and respected resident of this place. Mr. Gray has a blacksmith shop here. Yesterday he took a cup of water and found it very bitter. He spat out what he had in his mouth, and examining the cup found crystals on the bottom. Drs. Williams and Young examined the water and found it contained strychnine. Field left town at noon to-day. It is thought he will go to Fairview, where his wife is teaching school. The Sheriff is after him. Field has a good start, and may get across the line into California before overtaken.

No other Spring medicine has won for itself such universal confidence as Ayer's Sarsaparilla. It is the most powerful combination of vegetable alteratives ever offered to the public, and is acknowledged by the medical profession to be the best blood purifier.

NEVADA.

Wells Drury Interviewed by a Kansas City Paper—He Gives Nevada a Big Send-off.

Hon. Wells Drury, a citizen of Nevada, who is at present in Kansas City, as the representative of the Denver *Republican*, was seen at the Press Club rooms recently by a reporter of the Kansas City *Journal* and in reply to a question as to the probability of Mrs. Langtry's alleged strike of a silver mine near Carson City, as reported by the Associated Press, replied:

"Of course, it is possible, but the location mentioned has not heretofore been regarded as particularly favorable. It is in the neighborhood of the North Carson mine, which has never yielded much mineral, though the shafts and drifts are said to have shown the existence of a well-defined ledge. It would probably be just as well to wait for further particulars before buying stock in the 'Lily Consolidated,' or the 'Segregated Jersey,' or the 'Prince of Wales,' or anything of that kind. The story itself bears the trademark of a local jester, whose imagination sometimes leads him to the verge of hyperbole. His trademark is a bull."

"What about the mines of Nevada, anyhow? Are they all played out?"

"I should say not. They are producing right along, though to be sure the output of bullion is not so great as in years gone by, yet the amount returned for taxation last year was $7,000,000. This is the amount reported to the county assessors, you must remember. It is safe to say it doesn't represent more than half the real product of the mines. In the first place the revenue laws are not so strictly enforced as in some of the older communities, and besides, you know that every man thinks he has a right to give in his property for less than its real value. New mines are being discovered right along, and I look to see some bigger bonanzas developed than the Belcher, Crown Point or the Consolidated and Virginia. The country has not been half prospected, and there are plenty of fortunes waiting to be turned up."

"How is the state's financial condition?"

"Ah, that's where Nevada is strong. She doesn't owe a dollar to any outside creditor and has plenty of money in the treasury. I received a copy of state Controller Hallock's annual report to-day. Here it is. Just take a look at it and see if you don't think it makes a pretty good showing. First notice that there are outstanding warrants amounting to over $4,000 and the $20 gold pieces lying in the vault to pay them. If the state's credit was not as good as old wheat in the mill you may depend upon it the creditors would be hustling for their coin. The state school funds, mostly invested in United States bonds and Nevada State bonds, amount to over $1,250,000. The revenue receipts during 1887 were greater than they have been for five years, and the state's income is greater than her expense account by about $17,000 a year. Not a very big margin, to be sure, but it is enough. Better that than running behind."

"Isn't there a state debt?"

"Yes. The state owes to its own school fund $182,077.56, as you will see here by the Controller's figures. To meet this, there is in the treasury applicable to this purpose, the sum of $199,309.57, or $17,235.01 more than is needed to pay all demands. The old territorial indebtedness of $380,000, which was assumed by the state, has been funded in the shape of a so-called irredeemable State School Bond. This is one of the financial agencies adopted by the state for insuring a perpetual investment for a large portion of the state school fund, and by this means a great deal of expense is saved to that fund in the matter of renewing of investments, etc."

"How about the general condition of the state? Is the population decreasing?"

"No. It is on the increase. Business is improving all over the state; an appropriation has been made to encourage the sinking of artesian wells, the people are becoming interested in the question of irrigation, and every indication points to the coming of better times. The Reno *Journal* says there was a very small loss among cattle during the past winter, and the Winnemucca *Silver State* reports the sheep industry thriving. Live stock growers have a demand for more than they can raise, and San Francisco pays higher for such products than any other market in the world. When Congress does the right thing and establishes reservoirs for storing the surplus water of the winter snowfall, Nevada will come to the front as a great agricultural region. The mountains are nature's great reservoirs, receiving and holding the water in solid form, but artificial reservoirs are necessary to continue the supply during the latter portion of the season. Nevada deserves this, and the nation owes it not only to this state, but to the country at large, to carry out this necessary work. Taxes are pretty high, but property holders are able to pay them, as the small delinquent lists will show. The sun shines every day, the people vote the Republican ticket with great regularity and by a good reliable majority, and therefore they are correspondingly happy. I think their voice will still be for Blaine, if there is the least hope of his accepting the nomination."

Card of Thanks.

At a meeting of General O. M. Mitchell Post, G. A. R., held Feb. 20th, a unanimous vote of thanks was tendered the members of the Reno brass band, who so kindly aided in the ceremonies at the burial of their late comrade, William Balmer.

A. A. EVANS, P. C.
N. P. JAQUES, Adjutant.

UNIVERSITY EXERCISES.

Washington's Birthday Celebrated in an Appropriate Manner.

The exercises by the University Lyceum yesterday, in commemoration of Washington's birthday, were fitly chosen and well rendered by the members of the club in a manner very creditable to each individual, as was shown by the hearty applause elicited from the audience. The lecture hall was filled to overflowing, and many were seated on the platform and in extra chairs, filling every available space, while members stood in the halls and on the stairways.

This large audience was composed of the elite of the town, and comprised a full representation of parents and friends of the students, besides the entire class from Bishop Whitaker's School for Girls, in charge of their teachers, and a number from the advanced class of the Reno public school, accompanied by Professor Ring. On the platform were seated the University faculty and officers of the club, together with Regents Dovey and Dormer. At the head of the hall was an excellent oil painting of the immortal Washington, presented to the lyceum by our townsman, C. W. Booton, for which the club tendered a vote of thanks. After the rendition of the exercises, short speeches were made by Professor Brown and Regent Dovey. The remarks of the latter were very fitting for the occasion, and being eloquent and patriotic, awakened genuine enthusiasm. A letter from Mitchell Post of the Grand Army of the Republic was read by President Brown, which was full of patriotic expression and received hearty applause. At the conclusion of the exercises the choir rendered the national anthem "America," the entire audience rising responsively to their feet and joining impulsively in the soul-stirring strains of the patriotic music. Considering the impromptu character of the exercises, the celebration of the day was a signal success, and reflects credit upon President Brown, the University faculty, and the students comprising the Lyceum Club.

Omaha to Reno in a Street Car.

On Wednesday morning when the overland west-bound freight train arrived in Reno, it side-tracked as usual for the east-bound passenger train. On flat cars of the freight train were four passenger cars for a street-car line in Los Angeles. These were neatly housed in black oil cloth giving them the appearance of a procession of catafalques, which attracted attention and caused a crowd of early risers to gather about to inspect the elegant finish of the street cars where exposed by torn rents in the oil cloth covering. On his round of inspection the conductor looked into one of them, and found a tramp, robed in an old blanket, and cosily curled up on the cushioned car seat, enjoying his Pullman car surroundings like a king. He explained to the conductor that he was the first man that ever rode in a street car from Omaha to Reno, and that he would like to celebrate Washington's Birthday in the car "reading the story of the little hatchet and cherry—" "Chestnuts," said the conductor, and unceremoniously ousted the tramp.

Concerning the Nevada Bank.

Sacramento *Bee*: There has been a rumor floating around in financial circles that the Nevada Bank stockholders contemplated going out of the banking business and winding up the affairs of that institution. Various reasons are given for taking this step, the favorite one being that J. C. Flood, on account of age and increasing infirmities, could no longer give his personal attention to the affairs of the bank, and that neither Senator Fair nor Mr. Mackay could spare the time from their own large operations to personally supervise its transactions. The report is denied.

A New Departure.

H. F. Pavola, well known here as a boot and shoemaker, has made a new departure. During his recent visit to San Francisco, he selected a fine stock of gent's boots and shoes, and proposes to sell them at a price which will defy competition. He also engaged a boot and shoe maker, who is recognized all over the Coast as a master-hand at the business, and any repairing entrusted to him will be promptly attended to. Pavola means business, and he asks that all persons doubting his assertions to call and be convinced of the truth of his statements.

Carson Claim Jumpers.

The North Carson mine, which was jumped on Saturday last by relocators, was taken possession of in the night by the original owners, who now hold both the upper and lower tunnel with double-barrel shotguns and ten days' rations. The relocators made no attempt to dislodge them, but will sue in the courts for possession of the property. Claim jumpers were out in large force on Sunday, appropriating everything in sight.

A Buffet Car.

A new "buffet car," recently built at the East for the Southern Pacific, is on exhibition in San Francisco. The new car is of the usual Pullman pattern externally, and is placed on two trucks of six wheels each. Springs of a peculiar design have been added to reduce the jarring motion of the car to a minimum. The cost of the car was over $18,000. It is one of twenty-nine that have been ordered by the company.

A Reno Crank at the Bay.

A crank named Henry Kuhn, claiming Reno as his home, called at the Receiving Hospital in San Francisco Tuesday night and requested the surgeon in charge to kill him. He was taken into custody and when searched over $2,500 in money and checks was found. He is about fifty years of age, a native of Hamburg, and says he is engaged in farming near Reno.

BREVITIES.

Local and General Intelligence.

Good times on the Comstock.

Governor C. C. Stevenson is at San Diego.

The Grand Jury's report is expected to be a "corker."

B. F. Leete returned from the Eagle Salt Works Tuesday.

The Reno Guard paraded yesterday and presented a fine appearance.

The United States Circuit Court in Carson has adjourned until March 7th.

At Grass valley, California, last Saturday night a piece of wood exploded in Richard Vincent's stove, blowing off the teakettle and scattering things generally. The stick of wood had been loaded by some miscreant desiring to harm Vincent.

Farmers at Golconda, Paradise, Big Meadows, Guthries and other places through the country are reported as being busy plowing. Contrary to the general supposition the ground is not wet to any great depth, but in most of places it is in excellent condition for plowing.

Mrs. James Sullivan and daughter arrived in Reno by Monday evening's train from a four months' sojourn in New York city, whither they went for the benefit of Mrs. Sullivan's health. Yesterday being a holiday the young ladies of Mount Saint Mary's Academy took advantage of it, and drove to the Sullivan ranch to welcome the late arrivals.

E. S. Hendricks, George W. Lewis and Hugh M. Kanaghan, the two former of Elko and the latter of White Pine, were unwilling guests of Sheriff Flint Tuesday evening. They were on their way to Carson where they will do penance in the state prison for their misdeeds. The former goes for fifteen months, the second for life and the latter for ten years.

J. A. Fitzgerald and Larry Derby, accompanied by their better halves, went to Virginia City this morning in a four-in-hand, and will remain there for three or four days, during which time they will make a thorough inspection of the mines. An interesting report is expected from the experts on their return, and a boom in Alta is already predicted by Bob Parry, who is in on the deal.

CARSON & COLORADO.

The Extension of the Road From Keeler to Mohave.

In speaking of the extension of the Carson & Colorado railroad from Keeler (its present terminus in Inyo county) to Mohave, the other day in San Francisco, H. M. Yerington said he did not know how soon the work would be commenced, but when they did start in on it it would "go through like a shot." The distance between the two points is only 110 miles. Mr. Yerington said there were no great difficulties to encounter in its construction, as the line would parallel the ranges of mountains through which it would in a great part run, and there would be only one pass over mountains that would cause any serious obstacle. The entire route has already been surveyed. The road will considerably shorten the route from Eastern California and Southwestern Nevada to San Francisco, and also from the same section to the East, and a shorter route means lower rates, and lower rates means increased business.

The extension of the road will be of great advantage and benefit to the section through which the road now runs. It will open up the great Owens valley in Inyo county, which is at present only sparsely settled, notwithstanding it contains some of the best land in California, which only requires water on it to make it one of the most productive sections on this coast.

Cute San Diegans.

THE people of San Diego may not have the best country in the world, but they have a populace of wonderful business tact and cunning. A gentleman just up from there gives an illustration of their method of advertising the country. Every day a man drives a four-horse load of corn into town. The real estate men gather round the wagon and pronounce it the finest production in the world, "grown just outside of the city." Some real estate man buys the load at a fabulous figure, the load is driven to some back street and on the following day another man drives it into town, and so on. Aleck says he has been in San Diego several months and not a day has passed but that the same identical load of corn has been driven into town and purchased by some real estate dealer. But the best of it is that the corn was originally shipped from Chicago.—*Santa Rosa Democrat.*

For Sale.

$30,000. Mrs. Howard offers her ranch for sale. The ranch is on the Virginia road, the most delightful of all the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 600 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of stock, vegetables and other products in value about $9,000. By the expenditure of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and other buildings, a good orchard and other improvements. Price, $30,000; ⅓ cash and the remainder in five equal annual installments. Interest at 8 per cent. per annum.

$13,650. A. Santa's ranch located about five miles southeast from Reno is offered for sale. It consists of 455 acres, which will be sold at $30 per acre, or for $13,650 and on easy terms of payment. There is on the place a good house of eight rooms, two barns and other buildings. The place has plenty of fine irrigating water and as many as fifty springs of excellent drinking water. The ranch yielded this year 350 tons of hay, and pasture valued at not less than $1200. The total valuation of this year's yield is not less than $4,000, and some one year's yield has amounted to as much as $5,000. As the ranch consists chiefly of pasture and meadow land, the expense of running the place is exceedingly small. The ranch is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

FOR SALE—Lots 10, 11, and 12, in Block, F 4, Marsh's Addition, southside of rivet, very desirable location. House of two rooms (hard finished) and shed; lots cleared; size, each 50 by 140. A bargain.

$300. Lot 50x175 feet, on the Virginia road, short distance from court house; a very desirable location, and the best bargain in Reno for the price. Perfect title; ditch flows through the property.

80 ACRES OF LAND under improvement; good buildings and fence; 70 acres in alfalfa; choice orchard—600 bearing fruit trees; 5,000 nursery trees; good well. Situated ½ mile from the C.P. railroad depot, Reno.

FOR SALE—House and lot on east side of Virginia street, one door north of Fourth street; lot 50 by 140; house of five rooms. A very desirable locality.

FOR SALE—Lot 129.5 ft. by 140 ft., on east side of Virginia street, opposite residence of B F. Leete. This is a very desirable piece of property.

40 ACRES OF LAND; 26 acres in alfalfa; 1,750 forest trees, all under fence. Situated ¼ mile from railroad depot, Reno. Rolling land, beautifully situated for residences.

560 ACRES; 100 acres enclosed by a substantial fence; 90 acres under fine cultivation; balance wild land—good for pasturage. Will cut 250 tons alfalfa this year. Two acres of young and bearing orchard; good seed land.

Perfect Title to 56 inches of Water.

New two-story house of three rooms hard-finished; good barn. Situated 3½ miles from Reno.

Price, $6,000—$2,000 down, balance on time at reasonable interest.

3,000 ACRES under substantial fence. ABUNDANCE OF WATER FOR IRRIGATION.

300 acres in wheat, barley and alfalfa.

Controls an immense outside range for cattle or sheep.

$2,000 WORTH OF HORSES, MARES AND COLTS.

All kinds of farming utensils.

Machinery, Wagons, blacksmith shop, etc. etc.

Plenty of water close by.

Ranch lies 20 miles south of Austin.

This would make one of the best stock ranges in the State.

Price, $15,000. Easy, terms of payment given.

Also several large properties in Truckee meadows; properties at Stockton, San Jose, San Francisco and Alameda.

Mines bought and sold. The firm has numerous correspondents who are dealers in mining property.

Ayer's Cherry Pectoral

Possesses the greatest possible power to heal and control affections of the throat and lungs, with absolute safety for children or adults. The experience of years has proven it to be of inestimable value as a household medicine, and for professional use. Thousands of physicians and families testify to its great worth. Jas. E. Moling, Hilliard, Ohio, writes: "I have used Ayer's Cherry Pectoral in my family for twelve years, and have found that, as a remedy for Coughs, Colds, or Sore Throats, it

Is Unequaled.

J. I. Miller, editor of the "Lutheran Home," Luray, Va., writes: "I advertise nothing that I do not know to be good. I was saved from the grave, I am sure, by the use of Ayer's Cherry Pectoral, and have recommended it to others with the happiest results." L. J. Addison, M. D., Chicago, Ill., writes: "I have never found, in thirty-five years of continuous study and practice in medicine, any preparation of so great value as Ayer's Cherry Pectoral, for treatment of diseases of the throat and lungs; and I constantly recommend it to my patients. It not only breaks up colds and cures severe coughs, but is effective in relieving the most serious bronchial and pulmonary affections."

John J. Uhlman, Brooklyn, N.S., writes: "Twelve years ago, I was afflicted with a severe bronchial trouble, pronounced by a skilful physician to be very dangerous, and liable to terminate in Pneumonia. After using one bottle of Ayer's Cherry Pectoral, I found great relief, and an occasional use of it since that time has, I think, extended my life ten years at least." Mrs. V. M. Thebaud, Montreal, Canada, writes: "Last spring my daughter was attacked by membraneous croup, or diphtheria. The doctor prescribed Ayer's Cherry Pectoral, which cured her of the diphtheria. Being still very weak and sick, she began taking Ayer's Sarsaparilla, which restored her to vigorous health."

Alfalfa as a Horse Feed.

B. F. Johnson writes the New York Tribune: Intelligent and observant horsemen tell us the California two-year-old thoroughbred is, as an average, quite as well grown and as fully developed as the three-year-old of our side of the mountains. This, they say, is probably owing to the mildness of the climate, and a green forage all the year round, if needed—that keeps a colt growing right along. These are, no doubt, good reasons, but possibly they do not embrace all of them. Has it ever been sufficiently considered whether the feeding of lucerne, green and dry, may not have something to do with the rapid growth and size attained at an early age? We know there are no better pastures in the world for putting on fat and flesh than those of Kentucky, where blue grass abounds, supported by timothy and clover, white and red; and we know, too, that in spite of these advantages Kentucky-bred stock is losing in size and weight every year—however it may gain in quality. And the same is, to a certain extent, true of the blue grass, timothy and clover pastures of the entire blue grass region west of the Alleghanies and north of the Ohio river. In view of these several facts will it not be worth while to try experiments with alfalfa, and learn by actual trial whether it may not do for eastern stock what it has done for that of the Pacific slope—giving it the lead in fast and fine horses with other kinds of stock to be heard from later on?

Figures About Farm Animals.

We have not yet received the annual statistical report of the Department of Agriculture respecting the numbers of farm animals in the United States; but Associated Press dispatches give what purports to be a summary of totals. From this we learn, says the National Stockman, that there is a reported increase in horses, mules and cattle, and a decrease in sheep and swine. The largest rate of increase is in horses, five per cent., and it is general throughout the country, though largest west of the Mississippi. The aggregate exceeds 13,000,000. The increase in mules averages 3 1-2 per cent. The increase in cattle is 2 1-2. It makes the aggregate over 49,000,000. The increase is nearly as large in milch cows as in other cattle. In sheep the decline appears to be between two and three per cent., the aggregate of flocks being nearly 43,500,000. There is a smaller decline in the number of swine, less than one per cent., leaving the aggregate over 44,000,000. The aggregate value of all farm animals is $8,000,000 more than a year ago. The increase in cattle is something of a surprise, but we refrain from comment until the report itself shall have been received and its details examined.

The Senate Committee on Finance has reported favorably a bill for the relief of importers of live stock for breeding purposes. A recent decision of a Texas court is to the effect that the privilege of free importation of breeding stock is confined to men who do not intend to sell the animals, and the interests of a large number of dealers in imported breeding stock are involved, as the decision renders them liable for past transactions. The bill directs the Secretary of the Treasury to remit all duties which may have accrued against such importations.

Within the neighborhood of one hundred thousand head of cattle will be put on the ranges in Montana this Spring, in the opinion of the Stock-Growers' Journal.

American live cattle are selling in the Liverpool market at 11 3-4 and 12 1-4 cents, estimated dressed weight. Dressed beef is worth 8 1-4 cents.

Exports of live stock and dressed beef from Boston for the foreign markets last week were 890 cattle and 1,759 quarters of beef.

The pork-packing year ends March 1, and the decrease so far from the preceding year is placed at 585,000 head.
